

OPEN CALLS CALENDAR

The EEA and Norway Grants represent the €1.3 billion contribution from Iceland, Liechtenstein and Norway to reduce economic and social disparities in Europe. Over a five-year period until April 2009, the three EEA EFTA countries make available funding for projects in the public benefit in Central and Southern Europe. The funds are distributed on the basis of open calls for proposals.

Individual projects: All open calls for individual projects have now been concluded. More than €930 million have been made available through 30 calls. All public and private actors registered as legal entities in the 15 beneficiary states could apply for grants, as could non governmental organisations and other civil society organisations. The projects selected at national level have already been or will be forwarded shortly for approval by Iceland, Liechtenstein and Norway.

Funds and programmes: Several calls for proposals are however currently open under many of the funds and programmes within the beneficiary states, and additional possibilities for applicants will open up under these over several years to come. The funds and programmes provide tailor-made assistance to groups or interests that may otherwise have had difficulty in gaining support, such as non-governmental organisations and students.
